

White Sapphire Matte

International Inventories Status

Alumina, or aluminum oxide (Al_2O_3), is a crucial component in White Sapphire Matte production. Alusion refers to the distribution of alumina particles within a medium, influencing properties like reactivity and mechanical strength. The comprehensive international inventory data on Alusion are:

Regulatory Status: Aluminium oxide is listed in several chemical inventories:

- **United States:** Included in the Toxic Substances Control Act (TSCA) Inventory.
- **European Union:** Listed in the European Inventory of Existing Commercial Chemical Substances (EINECS).
- **Japan:** Registered under the Chemical Substances Control Law (CSCL).
- **Australia:** Present in the Australian Inventory of Chemical Substances (AICS).
